## Exclusive Partners & Experience

Accentuate and Sis.bio have combined to power its integrated water resource management initiative. We are working on implementation of Biotechnology Solutions that enable Integrated Water Resource Management for Renewable Water. We have delivered sustainable solutions to lakes, hydroelectric dams, drinking water reservoirs and river systems.

We are exclusive partner of Rottler for smart manufacturing of products including manufacturer of Surfacers, Hones, Multi-purpose CNC Machining Centers, Porting and Digitizing Machines, Seat and Guide Machines and consumable parts for the Performance Racing, Engine Remanufacturing and OEM Manufacturing industries.

We are an exclusive distributor of Mercury Lab, that is a single-person portable laboratory for advanced molecular diagnostics, bio surveillance, and forensic testing without the need for a pallet full of equipment. This dramatically reduced the time to acquire an actionable result and safeguards the quality of the sample by eliminating the need for extended transport.

Veterans Health Admin. - Accentuate provides Development, Security, and Operations (DevSecOps) solutions to enhance the effectiveness and quality of the project O&M. We provide Infrastructure Planning for Cloud Migration, Network bandwidth testing, Quality Assurance Testing, Performance Testing and End User Experience support.

Consular Modernization - Accentuate was tasked with providing mission critical IT resources to support 300+ Consular locations including approximately 230 overseas posts, 29 domestic Passport agencies, 2 domestic Visa processing centers, and an array of information, book/card print, passport centers, DOS annexes, and sites.

The Affordable Care Act (ACA) Administration, we supported SMEs on the ACA Coverage Data Repository, Income & Family Size Determination, ACA Information Returns, ACA Verification Service, ACA Compliance Validation, & acceptance. We used Cloud, Agile/SAFe Agile, DevOps, & next gen infrastructure to reduce costs & manual effort.

At Mythics IDIQ, Accentuate analyzed, developed use cases, scripts and performed multi-phased testing for various application development teams to improve deployment confidence. Our SMEs performed performance and load testing for critical DHS/CBP applications, assuring proper capacity and performance planning.

We supported the General Fund Enterprise Business Systems program, by developing a financial solution for the Army, which involved designing the system, converting data. We worked closely with Army SMEs to perform requirement development, system configuration, testing & end user-training.
